

THE GREATER BETHESDA-CHEVY CHASE CHAMBER OF COMMERCE

Payroll Network Associates Obtain American Payroll Association Certifications

Team is One of Industry's Most Accredited

Kensington, Md.- Payroll Network (www.payrollnetwork.com), a leading independently-owned payroll management company that provides payroll processing and HR services to companies in the Washington, D.C. region, has announced that Shawanda Johnson, client services analyst, has been named a Certified Payroll Professional by the American Payroll Association (APA). APA offers two levels of certification -- the Certified Payroll Professional (CPP) and the Fundamental Payroll Certification (FPC). Marketing Coordinator Colleen O'Neil also recently earned the FPC designation.

The two join more than half of the Payroll Network staff who are nationally designated by APA as well as hold numerous other prestigious industry certifications. All four of the company founders are also Certified Public Accountants.

“Our highly-trained, locally-minded staff is what sets us apart from other payroll companies that typically treat clients as just a number,” said George Whitehouse, CPA, CPP, senior vice president of Payroll Network. “Our clients know that when they call us they are most often speaking with someone who had decades of knowledge and can help them easily navigate the often changing and complex world of payroll management.”

According to APA, the two certifications are valuable, objective credentials that verify a specified level of knowledge, skills, and abilities in the payroll profession.

Payroll Network is a leading independently-owned payroll management company that provides payroll processing and HR services to companies in Washington, DC, Virginia and Maryland. Established in 1998, Payroll Network is the trusted, local provider of integrated payroll services offering professional, responsive and personalized service along with customized solutions.
